"Complacency is..."

Dear Editor:

To stop publishing the "Complacency is..." column in the NEWS would be to stimulate the growth, among the residents of the greater Carbondale area, of the very state of being that that column is directed at doing away with, namely, complacency.

In the interest of Carbondale, and of Carbondale's future, I encourage you, therefore, to continue to publish, in every issue of the NEWS, the "Complacency is..." column.

Sincerely,

S. Robert Powell
Carbondale
